# UNIVERSITY OF BRITISH COLUMBIA OKANAGAN TEACHING & LEARNING CENTRE

## ABOUT THIS PROJECT

- + Designed to LEED® Gold, this innovative facility provides a new student centre for the University of British Columbia Okanagan.
- + A haven for both collaboration and technology-driven learning, the centre includes a 600 seat lecture theatre, 32 study rooms, and a large informal learning space for students.
- + An immersive theatre with a 270-degree wrap-around and a floor-to-ceiling screen will welcome students in 2018, and will allow instructors to incorporate rich, audio-visual lessons in their teaching plans.
- + By utilizing daylight harvesting and occupancy sensors, all lighting systems have been designed to maximize energy efficiency sources. All lighting solutions provided included high-efficiency LED bulbs.
- + As an extension to the existing library on campus, the new centre also ties into the centralized campus systems for IT, AV, fire alarm, and emergency power services.
- + Smith + Andersen worked with the full design and construction team to support the smoothest possible tie-in.

**LOCATION**  
Kelowna, BC

**SMITH + ANDERSEN  
SERVICES PROVIDED**  
Electrical

**SIZE**  
58,000 sq. ft. (5,388 sq. m.)
